Lead Graduate Teacher, Leeds School of Business, 2006 - 2007

The Lead Graduate Teacher (LGT) Program at the University of Colorado is an award-winning, nationally recognized program that provides professional development opportunities for graduate students university-wide. LGTs are selected by their school faculty and are trained and supervised by a select group of master teachers from across the university. Instruction covers pedagogical theories, applications, and immersion in actual pedagogical experiences in order to develop skills in classroom teaching, peer consultation, and evaluation of peer teaching effectiveness. As the LGT for the Leeds School of Business, I prepared, led, and organized several teaching workshops at school and university levels and served as the school's administrative liaison.

Industry Experience

MWH Soft, Inc., Engineer (Broomfield, CO, 2002 – 2003, Pasadena, CA, 2001 – 2002)

MWH Soft provides infrastructure software for utilities, cities, and organizations. I supported over 700 consultants & utilities in building Water and Sewer Master Plans. I marketed MWH Soft products and services to clients generating over \$150,000 in new-sales in 2002-2003. I also trained over 300 corporate and client personnel to design and maintain water and sewer master plans.

ZL Technologies, Inc., Engineer (Mountain View, CA, 2000 – 2001)

ZL Technologies develops software solutions for email archiving, secure email, and secure file collaboration. I was part of the core team that developed their initial suite of software with responsibility for quality assurance, project scheduling, and management. I also provided high-end technical support and developed software using HTML, JavaScript, DHTML, JSP, Java, and WML.
